## Canal & River Trust Open Weekend

We are holding back the waters and opening the gates in central Birmingham.

Step down into the rarely seen and exposed lock chamber while we carry out important maintenance work and replace the lock gates at Lock 1 on the Birmingham & Fazeley Canal.

**The open weekend includes:**

- lock chamber visits
- speak to construction team about the new handmade lock gates
- guided walks to The Roundhouse
- a chance to get involved in volunteer project Greening Birmingham
- old photographs of the lock and canal
- children's activities
